

# Don't GAMBLE with our RETIREMENT

The Retirement Board is proposing to invest up to 28% of your retirement funds into high-risk hedge funds, which are not appropriate for Pension Plans with retirees who live on fixed incomes.

CalPERS, the largest Public Pension Fund in the country with assets of \$300 billion, is getting out of hedge funds because of excessive fees and mediocre returns.

Proposed investment in hedge funds will cost our Pension Plan \$100 Million per year in fees alone.

**Join Us for a Town Hall!**  
**Thursday Feb 5**  
**5:30 - 6:30pm**

SEIU Local 1021 Union Hall
